

Dear valued customers and partners,

We are pleased to announce that BINDER has officially acquired Parameter Generation & Control, based in Black Mountain, North Carolina, USA. This strategic acquisition strengthens our product offering in temperature and humidity solutions. Parameter's expertise in Walk-In solutions perfectly complements BINDER's leadership in Reach-in environmental simulation technology. Together, we can deliver even greater value and innovative solutions to support your success.

For you as our valued customer and partner, this means an expanded portfolio of high-quality products, enhanced service capabilities, and a continued commitment to providing reliable, state-of-the-art solutions that exceed your needs. The Parameter team's deep expertise and technology will integrate seamlessly into BINDER's operations, ensuring you benefit from the combined strengths of both organizations.

We are excited to continue our partnership and will share more details soon about how this acquisition will benefit you. Thank you for your trust and support as we take this important step forward together.

Your Parameter & BINDER Management Team
